

The Spanish-American

REGISTERED AUGUST 27, 1912.

IRVIN OGDEN, SR.
EDITOR AND PUBLISHERSubscription \$1.50 Per Year
Entered as second-class matter at the
postoffice in Roy, New Mexico.

This paper has enlisted
with the government in the
cause of America for the
period of the war.....

After reading the New Mexican's report of the Case trial we think the jury brought in a right decision. We are again disgusted with the Court practice which allows a lawyer to bulldoze, abuse lie about everything connected with the case, call people names and a lot of other things that other people may not do and the Court permits and encourages it.

If there is one thing in our whole system of government that needs fixing it is Court practice and we trust it will be reformed to make lawyers amenable to the same laws as other people or at least permit people to protect themselves where the Court does not.

When this abuse and the farce that our Jury system is so frequently made is corrected, the Courts will more nearly meet the needs of the people and could not be so easily converted into Political Machines.

The Educational Division of the U.S. Food Administration for New Mexico is being extended. E. Dana Johnson, Educational Director, has added to his staff, A.M. Hove of the Publicity department of the Santa Fe Railway. Mr. Hove comes to the Food Administration from the office of R.J. Parker, General Manager of Western Lines of the Santa Fe System and has been in charge of publicity in New Mex. and northwest Texas.

More than anything else is the Judiciary of the state at stake, it is the duty of the people to see that it is clean, above reproach by these who may desire to dictate the course of justice for personal and political aims. Kaiserism is not Democracy, it is not conducive to Democratic success its existence spells defeat and the state leaders, the conscientious rank and file of Democracy knows this to be the truth.

Why a Republican Senate and a Republican Congress should be better qualified to conduct this war, any fairminded man must fail to see.

Can such claim be based upon past performances?

Though infinitesimally small, when compared with the present war, our Spanish-American war was conducted by a Republican administration. We won—it's true. But was it conducted in such an amazingly efficient manner from Washington as to reflect discredit upon the present?

Has it been forgotten that well founded and most severe criticism was given nation wide publicity then.

Should it be necessary to mention lack of sanitation and lack of many other things in our camps both here and abroad during that war?

Must the "embalmed beef" phrase be brought to light?

Must the irrefutably established proof of extravagance, of faulty ammunition, of scarcity of equipment, of want of coordination and many other things be revived?

If a Republican Administration a Republican Senate and Republican House did not cover themselves with glory then why, should they now?

FEDERAL PRICE COMMITTEES

Uncle Sam was a peaceable man, But fought when he had to see! He called for ships and he called for guns.

And he called for his fighters three. Soldiers, Sailors, Buyers of Bonds—

Which one are you? says he.

The Democrats of Union County did not let any grass grow under their feet in their plans to nominate Juan Duran for Secretary of State at Santa Fe, this week.

There is too much to tell about the convention to attempt it now besides many would not be interested or have already read it from the dailies.

RED CROSS LINEN Sale All this week. See Bills or ask the workers at the work rooms about it.

Questionnaires have been received by the Registrants in the recent Draft arrangements and one of the industries this week is filling out and getting them signed up. The S-A. editor has been directed to act as atty. for all who ask his services and has been reading up on the instructions.

Bradley News

T. J. Heimann was thrown from a horse and slightly hurt this week.

The Red Cross ladies will meet at Mrs. Ralph Hazen's this week they met at the schoolhouse and got a large supply of sewing last week.

The Hazen families motored to De Haven and visited their parents.

Grover Hamilton leaves this week for Kansas where his family is.

We miss Rev. Matthews and wish him well. He and his family have many friends in the Bradley neighborhood.

Hubert West has moved back here with his family.

All our farmers are busy cutting feed.

School starts next week and all anticipate a good school with Miss Fern De Pew, of Roy as teacher.

Fast Swimmer.

The fastest fish is said to be the dolphin, which can swim short distances at the rate of 25 miles an hour.

Beeswax for Cracks.
Cracks in furniture may be filled in with beeswax. Soften the wax until it is like putty, then firmly press it into the cracks and smooth over with a thin steel knife. Sandpaper over the surrounding wood and work the dust into the wax. This gives a wood finish or color, and when the furniture is varnished the cracks will disappear. Beeswax is better than putty, for putty soon dries, crumbles, and falls out.

Isn't It Possible That
The original New Year's resolution must have been made when Adam said he would turn over a new leaf?—Indianapolis Star.

Time.
Time doth transfix the flourish set on youth.—Shakespeare ("Midsummer Night's Dream").

Weather Prognostication.
Tradition holds that a morning rainbow is a sign of rain and an evening rainbow a sign of fair weather.

Miss ETTA HORNBAKER, N. G.
Mrs. Blanche Grunig, Sec'y.

Visiting Sisters welcome

Barber Blames Customer.

This stuff about the talkative barber is all wrong, it appears. A barber writes Seattle Post-Intelligencer protesting against further misrepresentation. It is the customer who insists upon opening his heart, he writes, and the poor barber is obliged to listen to all manner of confidential patter, home troubles, scandals, and occasionally the customer spills a bum tip on the stock market and the barber goes broke. It is this latter contingency that impels him to protest.

New V. Heater.

A fireplace grate made of tubing through which water can be circulated to distribute heat about a room has been patented by an inventor.
